PROFILE

Computer Engineering graduate with 6+ years experience in digital content creation, community-driven cryptocurrency marketing, and online retail.

EMPLOYMENT HISTORY

❖ Cryptocurrency Enthusiast Jun 2013 — Aug 2016

Helped with marketing new alternative coins in the market.

Actively participated in an online forum where most crypto users talk about the latest coins and what to invest their money on.

❖ Video Editing, YouTube Sept 2020 — May 2022

Produced and edited commentary and compilation videos for a YouTube channel

Optimized thumbnails, titles, and descriptions to improve click-through and viewer retention

❖ Toy Reseller Jun 2023 — Dec 2024

Managed online sales of collectible toys across marketplaces, handling product sourcing, and pricing

EDUCATION

❖ Marinduque State College Jun 2013 — Mar 2018

BS Computer Engineering

SKILLS

HTML, CSS, JavaScript, React, Photoshop, Final Cut Pro
ExpressJS, MongoDB

PROJECTS

❖ Expense-Splitting app Mar 2026

<https://hati-tayo.up.railway.app/>

Full-stack expense management app with shareable links for collaborative cost tracking.

Built with React, Express.js, and MongoDB. Deployed on Railway with AI-assisted development.
